U S A

First Edition 1959[©]

Second Edition 1972

Foreword

In order to intelligently cooperate with any plan, Divine or human, it is first necessary for the individual to *understand* something of the nature of that plan.

In the incoming Golden Age, a Divine Brotherhood, combining the energies of the Angelic, human and elemental Kingdoms, is pre-ordained as the natural expression of unity, harmony, and loving cooperation among evolutions, finding hospitality in the Earth's atmosphere.

Truly the time is not far off before the fulfillment of the prophecy—

“Eye hath not seen nor ear heard,
neither hath it entered into the
heart of man the things God hath
prepared for them that love Him,”
will be made manifest before all men!

Excerpts from letters and
instructions of Beloved
Maha Chohan and the Great
Host of Ascended Masters.

Dedication

This booklet is lovingly dedicated to the Ascended Master Saint Germain, Who, as Chohan of the Seventh Ray, is *eagerly* seeking unascended beings to help *Him* bring in the New and Permanent Golden Age on Earth. Mankind, imprisoned Angels and elementals too are destined to serve harmoniously together in this Golden Age.

It is Our decree that, quickly, the more *astute* amongst mankind can and will not only grasp Saint German's Vision, but, through *practical* service make it fact.

Our Dear Lord Maha Chohan

Acceptance, Blessing and Sanctification

of

THE CHART THE HOLY TRINITY PICTURE

“In the Name of the Father — God Almighty — Creator of Heaven and Earth (and all things in, upon and around it);

In the Name of the Divine, Immortal Three-fold Flame of Life within every human being;

In the Name of the Holy Spirit Whose Divine Nature it is My responsibility to externalize to the world of man, I do now consecrate, sanctify and protect this representation of the inseparable connection between God and man and the inevitable destiny of the latter to return to his Divinity — The Source from Whence he came. This Chart also has the complete acceptance of the entire Spiritual Hierarchy.

May I suggest that it would be well for all

who look upon this Chart and who sincerely desire to return more quickly to "The Father's House," to earnestly and determinedly endeavor to externalize (right here in the physical appearance world) the magnificence and perfection of your Divine Presence which this picture represents. You now have the opportunity so to do.

To any and all who will choose to accept My offer, I shall joyously give all the assistance I can to make you express more and more of My Comforting Presence, everywhere you move—so much so that men, women and children may be able to say of you—"There walks COMFORT; there does PEACE ABIDE!"

This I offer in deepest love that you may become Myself in action—in word, thought, feeling and deed. Then no longer shall I alone be responsible for expressing THE COMFORT FLAME across this dear Earth — for "I AM," willing to graciously grant this opportunity to you also.

THE CHART THE HOLY TRINITY PICTURE

What It Means

In every Christian religion we find some references that "THE HOLY TRINITY" is revered. The accompanying picture shows the HOLY TRINITY in Its Entirety. We have the FATHER, which is the topmost figure; the lower figure, THE SON, and THE HOLY SPIRIT occupying a place in the heart of the physical man.

THE SILVER CORD

Looking at the upper figure on this chart we see a Ray entering the top of the head. This Ray of Life is known as The Silver Cord.

Look at the form and essence of life (Silver Cord) as it flows into the individual, which appears like billions of beads of life strung together making a river of electronic substance, enters your body to fulfill all your requirements, and yet this great river of force flows through you, for the most part, unclaimed, filling the aura of each day with no constructive effect.

The great world of science has said that if they could build machines powerful enough to crush an atom, that from the energy released, one tiny atom would be enough to carry a great ocean liner across the sea, and yet in the course of a second, each one receives into his own heart—Holy Christ Self—(unrecognized) many countless billions of these atoms that pass out into the universe,

unused, because man has not learned the power that lies within his own lifestream.

There is only one life that flows through every one of the ten billions of lifestreams belonging to the planet Earth. There is no difference between the life that flows through each one any more than there is a difference between the water that flows through the faucets on the main floor or the second of a building. The Father of all Life and the Ascended Masters are constantly pouring Their Peace, Their Perfection, Their Mercy and Their Freedom through every lifestream, and there will not be one atom on this Planet which will not eventually achieve Perfection and Immortality.

Beloved children, life can be beautiful. It is a magic, mystic thing because it is substance of the body of God. It is a conscious emanation of the life of the individual pouring forth constantly into the atmosphere of Earth everywhere. It is the electronic energy of Love itself taking humbly whatever form is required of it by the user at the moment for good or evil (through the use of free will of its receiver).

Suggested Decree

Beloved Presence of God "I AM" in me and
Beloved Astrea!

I call upon the Law of Forgiveness for my
wanton use of God's Life through the ages.

*1—Purify (3) my *emotional* body so that life can
and will flow freely to bless all life.

Repeat from* for—*mental* body, *etheric* body and
physical body.

THE CAUSAL BODY

The circles of color around the head of the
Chart is called the Causal Body, which is a reser-
voir or storehouse of all the good created in any
embodiment.

The beautiful colors of the Causal Body are
representative of the Seven Spheres of Conscious-
ness which is the natural Aura of the Sun of our
System and to a lesser degree, is the externalized
amount of constructively qualified energy that
each lifestream is endowed with as it progresses
from the pure state of innocence. Each man's aura
around the human form is colored according to the
qualification of his energy and according to his
particular service and use of life.

Master Jesus has said — "It were wise that
you lay up your stores in Heaven." He meant to
lay up within the glory of your own Causal Body,
momentums of good that can and shall be used
and utilized from time to time.

If one is in doubt as to the Ray or Sphere to which he belongs, he, can, through contemplation of his habits and tendencies find that he is also irresistably drawn to a certain color, which may be taken as an added confirmation of his affinity with any Ray or Sphere.

* * * * *

Suggested Decree

Beloved Presence of God "I AM" in me and My own Beloved Holy Christ Self remove the cause and core of all unknown impurities in my lifestream and release all the Power, Gifts, talents and blessings of My Causal Body NOW to bless me and all imprisoned life everywhere.

Charge (3) the gifts of My Causal Body into my world and let them radiate forth NOW for the blessing of myself and all imprisoned life everywhere.

SO BE IT!

TUBE OF LIGHT **

The Tube of Light surrounding the lower or human figure was a natural protection given to every created man and woman as a protection against temptation, but man, given free will by his Creator, through wilfulness, substituted his own human desires for that of God's. This is what is called the 'fall of man' or ejection from the Garden of Eden.

This Tube of Light or Mystic 'Ring pass not' of which the Ancients spoke may again be consciously created by the student through the power of visualization, acceptance, decrees and songs.

The natural radiation from within the heart, pouring forth through the physical and inner bodies forms a Golden Circlet of Fire around the physical body.

When the attention is drawn to this indwelling Holy Christ Presence, the outpouring of the

God Light intensifies this Circlet until It becomes an actual transmuting force of all discordantly qualified substance and energy either consciously directed toward a student, or through which he must pass in his orderly course of daily living.

* * * * *

Suggested Decree

Beloved Presence of God "I AM" in me and My own Holy Christ ~~Self~~ help me to recreate and sustain the protective tube of light around me and my loved ones and to maintain the harmony *required* to not only sustain but to expand Its Perfection this hour.

SO BE IT!

**** Also known as the
Mantle of Light.**

VIOLET TRANSMUTING FLAME

Mankind, in general, are not yet aware of the fact that while they have fallen from their Godly estate, and through the Gracious Love of the Eternal Father they have never been divested of their Creative Power. They do not realize that they, themselves, create every experience, both good and bad, which manifests in their worlds.

The Sacred Fire of Purification is a very real and tangible manifestation of God's Love and Mercy. It is a gentle though powerful application of God's Grace, administered without the agony of suffering, which accounts for the feeling of good will and happiness that pervades the world around the Christmas Season. It is also responsible for the desire on the part of humankind to make 'Good Resolutions' around the first of each year, many of which, alas, are soon abandoned in a return to the old ways of the flesh.

The Violet Transmuting Flame — the Forgiving and Raising Power of God, had a small beginning in the gentle heart of a soul dedicated to

Love and Mercy long ages ago. Since that time, beloved ones, many great souls, realizing Its need, have poured their life energies into the Flame of Mercy until now It has assumed Cosmic proportions and the knowledge of Its Presence has seeped into the outer consciousness of some of mankind through myth and legend in such representations as the River Styx and other fires erroneously called punishment at the other side of the veil.

Persistent and consistent use of the Purifying and transmuting Fiery Flame of Freedom's Love will ultimately free the lifestream entirely from the accumulation of discord which has created present karma and limitation. It will also build an impregnable Wall of Light around the user, keeping out discord that is continually floating in the atmosphere caused by emanation of others. When perfect harmony is evident in the daily life of the individual then it may be said that he has steadfastly used the Merciful and Forgiving Power of God's cleansing Flame.

The Creative Centers (thought, feeling, spoken word and action) in the consciousness must be

employed to mould out of the Universal Light the manifestations and substance they require to *replace* the imperfect appearance to be dissolved. Experiment with your *creative faculties*. Choose a simple design and mould it out of Light Substance. Then when you hold its manifest form in your hands you will have more confidence in the power of your own life energy to create and sustain your heart's desires within your own sphere of influence and in the attainment of your own individual governing power of obedient life energy. Take the motto — "know, dare, do and be silent." This makes for God success.

The great God Freedom (The Ascended Master Saint Germain) has brought forth some knowledge of the Violet Fire because His Love is great enough to cause Him to stand before the Throne of God and request the *opportunity* to save this Earth from dissolution. This boon was granted Him. His answer was the gift of explaining the Violet Transmuting Flame to mankind whereby they might cleanse, purify and redeem the electronic substance which they so boldly drew from the Heart of the Eternal and forced it to assume

such shapes and forms as make the Angels hide
Their faces in shame.

Be eternally grateful to the Eternal Father of
All Life and Light, Who has provided man with
the opportunity, through the use of the Violet
Transmuting Flame of Freedom's Love to wipe
out all the centuries accumulation of discord from
your being and world.

* * * * *

Suggested Decree

Beloved Presence of God "I AM" in me and
Beloved Ascended Master Saint Germain—

Blaze Your Violet Transmuting Flame in,
through and around me now, dissolve all creations
known and unknown which have created imper-
fection. Replace them by God's Divine Plan ful-
filled, here and now.

What I ask for myself I ask for all mankind.
I thank Thee.

SO BE IT!

THE SACRED FIRE

The Immortal, Victorious Three-Fold Flame of Life

The magnetic power of the Fire Element
within the heart cannot be denied by any Intelli-
gence or Power of the Sacred Fire in any realm,
Divine or human. This is irrefutable Law. We
move forward then on the premise of CERTAIN-
TY of ACCOMPLISHMENT.

The way and means by which the Sacred Fire
may be drawn, focused, moulded and directed
will differ according to the individual development
of the student as well as the natural Ray to which
he belongs and the requirement of the current hour
in local, national or world events.

This focus within the heart is referred to as the
Immortal Victorious Three-fold Flame of Life. In
the unawakened man, It is but a "Spark of Divin-
ity"; when this small Spark takes the form of the
God Presence or Christ in miniature, and begins
to grow and expand in size and takes Its Right-

ful Command of the physical body as the Master Presence and Power of Christ, this is what is often referred to in Spiritual teaching of the past, as the "Second Birth."

When you are centered within the heart of your own being, beloved ones, you are in control of the vibrant energies that flow in a pristine stream from the Central Sun. You are magnetizing the Immortal Victorious Three-fold Flame within your heart which but awaits your direction to pour forth the perfume of your true being and quality with which you were endowed at the beginning and which was the reason for your having taken embodiment. There 'resting in action' in the center of that Secret and Sanctified Heart, you become a power that can never be thrown off balance. When you abide within the center of the Great Heart of God, then does the Father move forth through you, and your energy becomes a conductor, always, of whatsoever the Godhead desires to do *through you* at your point in the universe.

Within the Secret Place of your own heart, you will contact your own Divine Identity; there

also, may be found the Gifts of All Who are of the Heavenly Consciousness. Again we see the meaning of the Master Jesus' words: "Seek ye first the Kingdom of Heaven (your own Christ Identity) and all other gifts of Divine Consciousness and Its righteousness shall be added unto you."

So often has man heard the words, 'man is but consciousness,' and they remain but 'words' for him. Raise your own consciousness by an effort of free will, from the human or outer man's thinking, and fasten it to the mind of your own Higher Self within. In this way your creative faculties will be raised, and you will find yourself thinking, *feeling*, acting and speaking like unto your own Holy Christ Self.

Beloved ones, you each are known by and express your form of consciousness each moment that you breathe. Man expresses mostly from the outer consciousness of himself; yet if he will identify himself with his True Identity, then in Truth will he express the Consciousness of Heaven Itself.

"The Kingdom of Heaven is within," also

“The Kingdom of Heaven is at hand” are words spoken so many centuries ago by Beloved Jesus, and yet man has not learned to BE this beautiful Being which IS his TRUE IDENTITY.

Suggested Decree

Beloved Presence of God “I AM” in me, My own beloved Holy Christ Self! Release now through me all the powers, gifts, talent and virtues of My own Immortal Victorious Three-fold Flame until It illumines my mind, body and world and is a light unto all mankind as well.

SO BE IT!

THE ASCENDED MASTER'S LAW OF FORGIVENESS

When one becomes aware of a projection charged with anger, hate or other evil intent against oneself or perhaps another person who might not be conscious of the attack—seize that energy mentally, surround it completely with Violet Transmuting Flame and thus cleanse and purify it before it can take the form of some destructive manifestation and start back on its journey to its sender. Call to the Holy Christ Self of the projector, asking It to illumine the consciousness of the creator of imperfection so that it will see and revoke the error of its ways.

It is an act of great merit to invoke the Violet Transmuting Flame to sweep into all vortices of evil and to seek out by means of its Omniscient Consciousness the generators of that misqualified energy, all the motivating impulses back of them and Transmuting by the power of Its purification Flame the evil appearance already created.

There is nothing gained by driving misquali-

fied energy back into its creator, because by the very act of misqualification, the generator proves that he is ignorant of the Divine nature of all energy and is in dire need of the application of the Cosmic Fiery Flame of Love and Mercy rather than an intensification of the quality of evil which would be caused by the release of his own energy before the discord was Transmuted, with added qualification.

* * * * *

Suggested Decree

I consciously call on the Law of Forgiveness for my own and all peoples' conscious or unconscious transgressions of The Law of Love. Restore them, Oh Heavenly Father, to a state of Righteousness in the use of Your Life and remove the cause, effect, record and memory of all such errors of the past, present or future!

SO BE IT!

CONSCIOUSNESS

The question is often asked — "What is consciousness?" A man's consciousness is comprised of that of which he is aware or has been acquainted with through experiences in every life. The outer world divides the consciousness into *sub-consciousness* wherein is contained the experiences of the past which are sometimes buried deep into the nature; *the consciousness* which comprises the experiences of the present; and the *super consciousness*, or higher unfoldment toward which man is striving.

The students, as well as the average man, are constantly enlarging their sphere of conscious knowledge through every-day experience from the time of birth until the end of their embodiment.

Many men and many women never make an endeavor to enlarge their sphere of consciousness. For them it only exists by the tales, descriptions or photographs of *others* and the endeavor daunts them.

However, once you have achieved self mastery, although you return to the affairs of the outer world, that is a part of your nature and experience *which no one can erase*. No one can take

from a man, ascended or unascended, any experience that widens his consciousness — whether it be a sight of exquisite beauty in Nature's Cathedral or whether it be the entrance of a Purified soul* into the realms of Spirit, for consciousness is the sole property of each individual lifestream and is one activity that *cannot be stolen* or destroyed. Therefore, what man constructively builds into his consciousness by contemplation and endeavor is *his* for eternity.

*The soul and the etheric body, of course, are *one* and the *same*.

Suggested Decree

Beloved Presence of God "I AM" in me and My own Beloved Holy Christ Self.

Purify (3) *my* outer consciousness and that of all mankind. Make it receptive *only* to You and the Divine Beings Who are Your Servants. Help me and all mankind to open the *doors* of the outer consciousness only to Truth and to be constantly alert and aware of any force sent unseen that would enter the outer consciousness for destructive purposes!

SO BE IT!

RADIATION

Radiation is a marvelous subject for contemplation. Every manifest expression in the entire universe, from the smallest molecule to the Great Central Sun Itself, is a radiating center of one kind of vibration or another. When you stand near a heat radiator in Winter, you feel the heat, although your physical sight, as a rule, does not see the substance that makes up the heat waves. You have felt the light and warmth from the physical Sun in Summer and have enjoyed the fragrance of flowers as well as the pleasing aromas that radiate from food being prepared in the kitchen. All this is an activity of radiation.

All people radiate constantly, and the substance that is emitted from their various bodies affect all other people everywhere on the Planet. We are endeavoring now to bring every man, woman and child to a place where the radiation from their bodies is harmonious, restful and peaceful so that their lifestreams, when they are in contact with one another, are uplifted, balanced and enriched.

If you will remember that what passes from your body in thought — action, spoken word or feeling affects all parts of life on the Planet — men, women, children, animals, plants and vegetables either for good or evil, you will, I know, endeavor to express and expand only that radiation which is as *comforting* and which is as *healing* as the light from the Sun.

The Planet, as you know, is passing through a very dangerous and chaotic period, and when We can *depend* on your outer selves to hold a certain harmony, We will use you without limit in delivering this beautiful Earth from destructive activities and expressions.

* * * * *

Suggested Decree

Beloved Presence of God "I AM" in me and My own Beloved Holy Christ Self.

Help me now, in this Cosmic Hour, to govern harmoniously by the radiation created and sent forth from my emotional, mental, etheric and physical vehicles so that I may become a Conscious Conductor of their gifts, powers, talents and radiation to the recalcitrant race.

SO BE IT!

KARMA

The Result of Qualification of Energy

The whole Universe, of which our Planet is a small Unit, is governed by one great Law which is called *The Great Cosmic Law* (of Pure Divine Love).

The lives of the people abounding on the planet Earth are bound about by material laws governing almost every department of life, but man seldom stops to think that there are great universal laws, which govern his body, his spiritual growth, his personal happiness and his evolution.

The troubles and distresses that beset man today are caused by his disobedience to this Divine Law of Love. This reaction of discordant energy upon its creator is called karma.

It is the untransmuted evil creations on the Earth today that, when they meet, create great riptides that spew forth destruction in the shape of tornadoes, earthquakes and all other frightful manifestations the human consciousness is pleased to label "accidents."

The Planet Earth, as you know, is a Planet of

the evolution and development, particularly, of the feeling world. Mankind, in activated ideas of every kind, is constantly using life, and the spirit in which he uses that life determines the efficacy of manifestation. It is the *qualification of the energy of the feeling world* primarily, in other words, the *feeling which determines your action*, whether physical, mental, emotional or etheric that determines your karma.

When the feeling world is geared toward destructive intent, that is the sin which is preached in the orthodox churches as the 'sin against the Holy Ghost' which is unforgivable.

This is more important than your outer minds can grasp — because the *feeling world* is the energizing power by which all thoughts become things in the world of form.

The quality and Spirit which you have drawn through your feeling world determines the happiness or unhappiness which you will manifest.

The Law of Retribution — called the Karmic Law — takes notes of 'every jot and tittle' committed by every member of mankind that has made up the human race for aeons of time.

Every man, woman and child in the world has

been embodied before thousands of times, and all afflictions suffered by mankind today may be traced back to the destructive karma they created.

A merciful God has hidden from the eyes of man most of the memories and actions during former lives, but nevertheless, under the Divine Law, each embodiment is written in the "Book of Life." Every man, woman and child must atone in one way or another for sins against Life and Love committed in former existences as well as in this present or future embodiments.

* * * * *

Suggested Decree

Beloved Presence of God "I AM" in me, My own Beloved Holy Christ Self and Our Father of Mercy.

I accept *now* that all misfortunes in my world of experience stem out of my misuse of Your life in the past.

Help me now to Transmute this destructive karma for myself and my fellow man and become, in evidence, an arm of Your Mercy in this world of form as well as in the "hereafter."

SO BE IT!

LAW OF THE CIRCLE

Cause and Effect

The Law of Retribution; the Law of Cause and Effect and the Law of the Circle are synonymous and refer to the same aspect of the Cosmic Law (Karma referred to in previous chapter). While it has worked unerringly in its consequences in the experiences of mankind, they have failed to learn its effect that it would be far wiser and safer to live within the Law of Harmony until the Love element within has developed to a point where they desire to abide in Love. Jesus said, "Moses brought you the Law — I bring you Love."

The Law of the Circle governs all manifest life, from the smallest molecule to the Godhead Itself. Every expression of life is endowed with a certain amount of energy, according to its requirements and development, and is, therefore, given an opportunity for better living with each indrawn breath.

It may not be generally understood, however, by the majority of mankind that they, as self-conscious expressions of life, are held responsible by Cosmic Law for every particle of this precious

energy drawn from the Heart of the Godhead nor that this energy is charged, by Divine Edict with absolute obedience to man's will and command. This is the highest expression of God's Love and Generosity to His children.

This light energy is the channel over which vibrations travel. The distance it covers depends upon the intensity with which it is projected, but both on its outward and homeward journey, it obeys the Law of the Circle, and, while it is temporarily absent from the aura of the individual who is responsible for its projection, it attracts to itself vibrations corresponding to its own rate. By the time it completes its circle and returns home to its creator it is accompanied by a goodly number of the same quality of thought and feeling vibrations with which it started.

There is no error in the return of man's energy; no man can stand before the ALL-SEEING EYE OF GOD and deny the pattern of his own life energy imposed upon any part of life constructively or destructively, for where the 'stamp' is, like your footprint, (your qualified life) you must answer to life for what was done. The mo-

ment the returning energy touches the aura of its projector it settles down, as it were, and begins to germinate seeds which produce a harvest according to their nature.

Be careful, therefore how you speak, because everytime you speak a word, ENERGY rushes forth from your mouth and creates a thought-form composed of the pattern of your lifestream. It behooves us, then, to be careful how we use this energy, because according to the manner of sending it forth do we receive happiness or otherwise in its return (good or destructive karma).

* * * * *

Suggested Decree

Beloved Presence of God "I AM" in me and my own Beloved Holy Christ Self.

Help me, through the use of the Violet Transmuting Flame, to purify all energies I have used destructively and return them pure and perfect to the God Who so generously created me. You in Your wisdom assign the purified energy to fulfill Your Divine Plan, through me and all others on this Earth Plane.

SO BE IT!

THE COSMIC WHEEL

The Cosmic Wheel, which allows the play of certain Spiritual Stimuli upon the Earth and the inner bodies of Her people, has one complete revolution in every fourteen thousand years. During this time, each of the Seven Rays is given an opportunity to play upon the Earth and give the nourishment and love of Its particular quality to evolving life upon It in order to unfold the Spiritual nature of each of its component parts.

The Cosmic Cycle is divided into minor cycles of two thousand years; each one under the direction of a Great Being especially dedicated to a particular quality of the Godhead necessary to the evolution of the Earth life for that period. These Beings are called "Chohans of the Rays," the word "Chohan" meaning Lord and "Ray" the color and activity of each of the various Spheres which make up the Aura of God.

The first two thousand year cycle is under the direction of the Chohan of the First Ray, representing the Father, or The First Person of The Trinity. This Being sets the patterns for the Religious, Governmental and Individual Evolution of

the souls taking embodiment in that cycle. He embodies the Will of the Father.

The second two thousand year cycle is under the direction of the Second Ray, representative of The Second Person of The Trinity, The Son. His Office is dedicated to the development of the qualities and precepts laid down by the Will of the Father under the First Ray.

The last ten thousand years of the Cosmic Cycle is under the direction of the Great Being called Maha Chohan, Who represents the Third Person of the Trinity, or the Holy Spirit, to the Earth. His Office is so diversified in Its Nature in that He is responsible for externalizing the Will of the Father, with the cooperation of the Son, through every expression of life on the Planet, mineral, vegetable, animal and man, that He has chosen to subdivide the ten-thousand years into five minor cycles of two thousand years each, thus completing the fourteen thousand year period of the Cosmic Cycle.

At the head of each of these minor Cycles, the Maha Chohan has placed a Great Being, repre-

sentative of the Ray and Sphere presently active, Who is particularly dedicated to the qualities and nature which are to be developed in the evolving lifestreams during that period. The Maha Chohan holds the Office of Advisory Director to all of the Seven Chohans active in the Great Cosmic Cycle of 14,000 years.

The Cosmic Wheel has now turned to a point where the last of the five Sub-Rays of the Maha Chohan is about to be emphasized in its outpouring. In this final cycle, every lifestream on this Planet is expected to qualify its energies to fulfill the Plan for which it was created.

The purpose for the creation and sustenance of our Planet is to allow each lifestream evolving upon It an opportunity to unfold his Spiritual nature and become Master of energy and vibration through the conscious control and use of his creative faculties. In order to become such a Master Presence the three-fold nature of man must be nurtured and developed. For this purpose alone was the Cosmic Cycle instituted and sustained to the present day.

As each new minor cycle opens a New Method of incorporating the energies of the people is presented to the embodied lifestreams. The Cosmic Law, in Its Mercy, allows what is called an "Avataric Embodiment" to take place early in each of the sub-cycles of the Lord Maha Chohan. It is understood of course that an Avatar is a Being, like the Ascended Master Jesus, has worked out His destructive karma prior to His taking embodiment as Avatar, and is, therefore a *pure channel* through which the finest essence of the Ray is incorporated into the activities of the New Religion. *Before His Coming* and *after His Coming*, the work is left in the hands of good lifestreams who insist on "Explaining" The Law as the consciousness sees It. We are presently in this *before* stage, and while the forerunners of the Seventh Ray activity have done well, they have not touched even the periphery of the Truth concerning the Power of invoking, wielding and dispensing the Spiritual Currents that are the Seventh Ray's Gifts for the upliftment of the race.

Suggested Decree

Beloved Presence of God "I AM" in me and
My own Beloved Holy Christ Self.

Help me *now* to prepare for The Ascended
Master Saint Germain's Permanent Golden Age
on Earth and to inculcate all mankind with His
Vision and a like enthusiasm to serve Him and
make of Earth Freedom's Holy Star.

SO BE IT!

RE-EMBODIMENT

By the acceptance of "re-embodiment" people will understand the existing evils of the world, because they have all been generated in one life span or another by *every human* being that exists today.

Due to the 'fall of man' and his slow upward climb to the consciousness he enjoyed before his descent, and because of the balance each one owes to life by reason of the misuse of energy, as well as his unfulfilled mission, the karmic law allows him an allotted span of time at certain intervals, called 'Earthly Embodiments'. During this time he is expected to attend to his Spirit's mission. When this short period of time has expired, the personality is withdrawn to make room for another incoming and hopeful Spirit. This 'coming' and 'going out' of the individual are called by the names of 'Birth' and 'Death', each such experience being just an oft recurring episode in the evolution

of every being using the planet Earth as a school room.

The 'going out' should not hold any more terror than the 'coming in' because so-called death is but the transferring of the individual to a place of rest and peace where it may renew its energies and receive valuable instruction before the next embodiment. Ofttimes it is happily the Open Door to Eternal Freedom for some one triumphant Spirit Who has successfully fulfilled his Divine Plan.

Consciousness endures beyond the dissolution of the physical body at the time of so-called death through the intermediate life, and returns as a personal heritage of the re-embodiment individual, forming the foundation of his new experience life. Therefore, the richer and more perceptive our individual consciousness, the more rapid our growth in this and succeeding lives.

No lifestream that embodies receives in any embodiment more of his destructively created karma than his development will allow him to com-

pletely expiate within that life. There is no disease, distress or condition which through the Law of Justice and Mercy, is to be experienced by any lifestream in that embodiment, *that is greater than the developed consciousness and power of the individual* to whom that karma rightfully belongs. This is the Law, and you may tell it from the housetops.

"Where would the Activity of Justice and Mercy be were the debts to come back more rapidly than the power developed within to expiate them?" The Power is within the Holy Christ Self to expiate every bit of karma that belongs to each lifestream and which is allotted for transmutation in each Earth life. Very few individuals adore the Presence enough to externalize that power and make that balance. When they do, disease and death, disintegration and failure will cease to be.

THE PERMANENT GOLDEN AGE

Great Cosmic Events move in these gigantic cycles or circles and the Cycle governing the fourteen thousand year Dispensation of the Seven Rays must also come to a close in the joining or welding of the First and Seventh Rays.

One might call the Dispensation of the Seventh Ray the Cosmic Harvest, because it is really the gathering together or harvesting of the best endeavors of all Rays since that particular Cosmic Cycle's inception. It could also be likened to the final act of a great Cosmic Opera when all the efforts of the musicians and artists are presented in one glorious final symphony, with all the actors or participants on the stage.

As we are now at the close of these cycles—the minor and major—the Seventh Ray is to again play upon the planet Earth for approximately two thousand years. The Cosmic Law has said it is the FINAL Cycle for bringing forth God's Kingdom here on Earth. It is the final "warm spring Sun" that must draw life from bulbs and dormant

seeds just as the Heavenly Father and His Divine Messengers are required to draw forth the gifts and talents of the Holy Christ Self of every individual who has ever used the Earth as a school-room.

During the present two thousand year cycle, the Earth will go through a period of unprecedented activity along every channel of physical and Spiritual endeavor. Every individual within its compass will be given an opportunity, to attain his mastery and thus harvest the fruits of his endeavors through his many centuries of embodied service under one of the preceding Rays. Every individual belonging to the Planet, regardless of the Ray to which he belongs, who did not attain his Spiritual Freedom up to this time, will be given an opportunity to re-embody during this Seventh Ray cycle; will be educated along true Spiritual lines, and through his knowledge of the Sacred Fire, will be able to transmute "the tares sown by the enemy" (his lower self) and at the same time offer a beautiful harvest to his Lord.

It is all so beautifully simple. It is also mathe-

matically and scientifically accurate. There is nothing abstruse about it. Unfortunately through the ages, Spiritual Truths have been so clothed in mysticism that mankind for the most part cannot understand them without an interpreter, then, too, the interpreter very often colors the instruction with his own accumulation of mental effluvia.

It is a day when the inner preceptions of the individual is tested against the full measure of Truth and through his Spiritual Discernment he will find that "the fruit falls not far from the parent tree" nor "the Master's Word and Work from the Father's Throne." The two thousand year cycle of the Piscean Age governed by the Sixth Ray, and known as the Christian Dispensation has come to a close. As all cycles overlap, the sensitive "inner ear" and "inner eye" of Spiritually discerning individuals have glimpsed the Dawn of the New Day through vibrations of the Seventh Ray which are making themselves felt in the hopeful hearts of the Forerunners of the New Day.

All Great Beings and Powers of Light Who are connected in any way with the evolution of the

Planet are joining forces under the auspices of the Great White Brotherhood in this endeavor to free the Earth and Her people from the dark forces that have threatened to engulf her. We only wait man's answer to Our call.

We are in the last days of limitation and distress. We have in this Cosmic Hour unusual opportunity to set mankind and all life FREE!

The close of this Great Cosmic Cycle will usher in a Permanent Golden Age when God's Angels, man and elementals will walk together in peace and harmony and the Earth will take Her rightful place among the Triumphant Stars in God's Firmament. Come now forth from among the masses and enjoy being one of those who are in cooperation with the Great White Brotherhood bringing forth the Beloved Ascended Master Saint Germain's Golden Age here on Earth as it is in Heaven.

Suggested Decree

Beloved Presence of God "I AM" in me and my Beloved Holy Christ Self, make me and keep me **constant** in Thy Service until the **Earth** is truly Freedom's Holy Star.

Help me to recognize your vibration and not be led astray by "false prophets." What I ask for myself I ask for all mankind.

SO BE IT!

THE ASCENSION

After countless centuries of bondage, you can well imagine the joy that is experienced when the fetters of Earth, the limitations of the flesh, and the veil of forgetfulness are once and for all removed from the lifestream.

To attempt to describe those first instants of eternal Freedom, is as futile as to attempt to put into finite words a suitable description of the Personage of the Godhead. Suffice to say, that — at the very instant such Freedom is experienced — the lifestream is immediately faced with a free will decision as to whether it shall soar upward into Cosmic Heights of Peace and Happiness, or — with the glow of freedom still fresh in the heart — turn again to voluntary bondage and centuries of endeavor with the limited consciousness through some office in the Great White Brotherhood.

During the course of centuries of time, each lifestream who has embodied on the planet Earth

has developed certain definite talents and powers of accomplishment through the voluntary investment of life energy to specific interests. This is known as a "momentum" of healing, teaching, musical or artistic genius, as the case may be. It is an integral part of the lifestream's harvest, woven out of energies of the heartbeat, and is the only heritage of human endeavor which is allowed entrance into the Higher Sphere and which ascends with the consciousness at the moment when the Earth-pull is released from the soul at the close of the final embodiment.

When the Lords of Karma examine the individual for the last time, preceding Ascension, the full gathered momentum of the lifestream's service to life is presented for consideration before the Karmic Board. If the lifestream is found ready to be freed, from the wheel of birth and re-birth, the disposition to which the individual puts his gathered momentum of service must be made before the actual ritual of the Ascension takes place.

Individuals who have been offered the Ascension because they have expiated their individual

karmic debts and have gained mastery over energy and have renounced that freedom to better serve mankind are among the Holiest Sons of Heaven. They wear upon their foreheads a Spiritual identification in the form of an open lotus that is easily discernible to all whose inner eye is developed.

No other group of beings, human or Divine, have this particular mark, and wherever they are encountered the Supreme Intelligence of the Universe bows in acknowledgement of their Presence, their Sacrifice, their Love.

When these individuals do finally accept their Ascension this Lotus is amplified and even in Heaven's Highest Spheres it is a permanent identification of their Love and Service to Life that all who run may read.

The goal of all mankind is, ultimately, the Ascension in the LIGHT!
